Letter - Towada City - ESL Symposium - Sept 2014

Haruo Shirayama, President
Association for International Relations
Towada City, Japan

Dear Sir:

As the Government of Canada representative for the Lethbridge, Alberta constituency, it is with great pleasure that I extend warm greetings and well-wishes from the residents of my community to you and the citizens of Towada City.

As host of the 'English as a Second Language Symposium', attended by members of the Lethbridge Twinning Society, I commend your city for undertaking this initiative. English is the global language of commerce. For communication at the highest level it is crucial a common language be shared, to ensure opportunities in the areas of business, education, tourism and much more continue to exist. The symposium is a great occasion to share and expand language interaction.

I also extend an invitation to members of the Association for International Relations, along residents of Towanda City to consider studying English as a Second Language at an educational institution in Lethbridge, Alberta. As our city has a 'twinning' connection with your community, we would welcome the opportunity to host students in their pursuit of education excellence.

Sincerely,

Jim Hillyer, MP
