Dear Mr. Clarke

On behalf of the Lethbridge Constituency, I wish to extend warm greetings and well wishes on the occasion of Culver City's Centennial Celebration. I know that a celebration of this caliber takes months of planning and hours of man power, often given generously by volunteers from the community. I wish you success with your Opening Ceremonies and all the following events.

As Lethbridge and Culver City have had a sister city relationship for over 25 years, I am thankful that you have welcomed leaders and member of our community to celebrate with you. Please accept my deepest regrets that I am not able to be present.

I would like to extend an invitation to yourself and the rest of Culver City Council, as well as any resident of Culver City to visit the City of Lethbridge and take in all that there is to offer in Southern Alberta. I would also welcome the opportunity to meet you, should you find yourself in Lethbridge.

Again, congratulations on celebrating 100 years of history and thank you for allowing Lethbridge to support you on this momentous occasion.

Sincerely,

Dear Mayor and Council,

I am honored to be able to offer your city congratulations on the occasion of your centennial celebrations. It is most certainly a time of great celebration for Culver City as you mark a hundred years. As a Member of the Legislative Assembly of Alberta, representing Lethbridge-West, a part of your sister city of Lethbridge, Alberta, Canada, I am pleased to be able to share in this momentous occasion and to bring you greetings and best wishes from the people I represent.

The goodwill and friendship we share as sister cities is particularly valued by our residents. We have eagerly paid attention to your achievements and celebrated your successes alongside you. I was especially pleased to see the significant achievements you have made in municipal energy efficiency as that is an area that our provincial government has prioritized and as Minister of Environment and Parks, falls under my mandate. I congratulate you on your environmental stewardship and the efforts of your citizens to be energy efficient. We all share a responsibility for our shared planet.

Again, as you celebrate your past and look to your future we all hope that you hear the cheers from your sister city in Southern Alberta. Best wishes as you enter your second century as a city.
